9 of 9 review helpful Perfect book for a work task By J Bonbright I've been tasked at work to write a white paper discussing various Mac support scenarios for our Windows-centric environment. It will form the basis for negotiations between the IT folks and their customers who are clamoring to use their beloved Macs. My boss volunteered me

despite my almost zero knowledge of Macs and as a result spent thousands sending m Integrate Macs seamlessly into your Windows network These days almost every Windows network must include Macs and not just as second class citizens with limited connectivity but as full members of the network Covering Mac OS X Snow Leopard and Windows Server 2008 R2 Integrating Macs into Windows Networks shows you how to incorporate Macs quickly and easily into your Windows Server network You ll learn how to plan your Mac rollout choose the best About the Author Guy Hart Davis is the bestselling author of more than 50 computer books Mac OS X System Administration AppleScript A Beginner s Guide Mac OS X Leopard QuickSteps HTML XHTML CSS QuickSteps and How to Do Everything iPo
