**By Behrouz Forouzan : Data Communications and Networking (McGraw-Hill Forouzan Networking)** data communications and networking is designed including computer networks and internet data communications and networking mcgraw hill forouzan data communications and networking second edition behrouz a forouzan deanza college with catherine coombs and sophia chung fegan boston burr ridge il Data Communications and Networking (McGraw-Hill Forouzan Networking):

1 of 1 review helpful Makes an Interesting Topic Extremely Boring By Mr Anderson My major is computer science but this book almost made me seriously consider choosing a different area I thankfully didn t but I came pretty close

Why Extremely poor explanation of topics lack of good examples and just an overall lack of engagement with the reader I know the goal of a textbook like this isn't to entertain the As one of the fastest growing technologies in our culture today data communications and networking presents a unique challenge for instructors As both the number and types of students are increasing it is essential to have a textbook that provides coverage of the latest advances while presenting the material in a way that is accessible to students with little or no background in the field Using a bottom up approach Data Communications and Networking presents this h
