By Jacob Murray, Paul Wettin, Partha Pratim Pande, Behrooz Shirazi : Sustainable Wireless Network-on-Chip Architectures read sustainable wireless network on chip architectures by jacob murray with rakuten kobo sustainable wireless network on chip architectures sustainable wireless network on chip architectures focuses on developing novel

dynamic thermal management dtm and dynamic voltage and Sustainable Wireless Network-on-Chip Architectures:

Sustainable Wireless Network on Chip Architectures focuses on developing novel Dynamic Thermal Management DTM and Dynamic Voltage and Frequency Scaling DVFS algorithms that exploit the advantages inherent in WiNoC architectures. The methodologies proposed combined with extensive experimental validation collectively represent efforts to create a sustainable NoC architecture for future many core chips. Current research trends show a necessary paradigm shift.
