0 of 0 review helpful Five Stars By steve work great 0 of 0 review helpful Fedora and Red Hat Enterprise Linux By Andrew Ramirez What a fantastic book this is I am very satisfied with my purchase especially since it was about 20 30 cheaper from the bookstore at my college This book is very well written and can really make you understand and

improve your skills on Red Hat. I have found this book to be a very useful classroom text as well as a great Linux resource. It teaches Linux using a ground-up approach that gives students the chance to progress with their skills and grow into the Linux world. I have often pointed to this book when asked to recommend a solid Linux reference. — Eric Hartwell, Chair, School of Information Technology, ITT Technical Institute.
