**By Shelley Gaskin, Nancy Graviett, Debra Geoghan : Go! All in One: Computer Concepts and Applications (2nd Edition) (GO! for Office 2013)** one book everything you need go all in one second edition covers core computer concepts and applications office 2013 windows 81 and office web apps all abebooks go all in one computer concepts and applications 2nd edition go for office 2013 9780133427295 by shelley Go! All in One: Computer Concepts and Applications (2nd Edition) (GO! for Office 2013):

0 of 0 review helpful Difficult to do in text assignments By Aaron Lilak I got the kindle ebook bc I had added the class after the course started had homework due the following day The online book is convenient but very difficult to do in

text assignments Going between the text for the assignment directions to the word app is a pain in the butt Even when I have both on screen it s still hard to do Maybe my compute iquest Intended primarily for courses in Computer Concepts and Office Applications this text also provides practical content to current and aspiring industry professionals One Book Everything You Need GO All In One Second Edition teaches computer concepts and applications together mdash the way it is in the real world It engages students right a About the Author Shelley Gaskin Series Editor for the GO Series is a professor of business and computer technology at Pasadena City College in Pasadena California She holds a master s degree in business education from Northern
