For Geert Lovink interviews are imaginative texts that can help to create global networked discourses not only among different professions but also among different cultures and social groups Conducting interviews online over a period of

weeks or months allows the participants to compose documents of depth and breadth rather than simply snapshots of timely references The interviews collected in this book are with artists critics and theorists who are intimately Geert Lovink has made one of the few interesting attempts at using theory to liberate the Net from its fatal trajectory from militarism to the market For a brief moment a window opened on a view outside of a vanishing humanity Peter Lamborn Wilson au
