**From North Holland : Higher Order Logic Theorem Proving and its Applications (IFIP Transactions A: Computer Science and Technology)** the online version of higher order logic theorem proving and its applications by l higher order logic a volume in ifip transactions a computer science higher order logic theorem proving and its applications ifip transactions a computer science and technology ljm claesens mjc gordon on amazon free Higher Order Logic Theorem Proving and its Applications (IFIP Transactions A: Computer Science and Technology):

The HOL system is a higher order logic theorem proving system implemented at Edinburgh University Cambridge University and INRIA Its many applications from the verification of hardware designs at all levels to the verification of programs and communication protocols are considered in depth in this volume Other systems based on higher order logic namely Nuprl and LAMBDA are also discussed Features given particular consideration are novel developments in higher o
