By Michael E. Cohen : AirPort?and Mac?Wireless Networks For Dummies (For Dummies (Computers)) title airport and mac wireless networks for dummies for dummies computers publisher for dummies 2005 isbn 0764589717 computers; macs; starting a wireless network with airport; starting a wireless network with airport related book airport and mac wireless networks for dummies AirPort?and Mac?Wireless Networks For Dummies (For Dummies (Computers)):

2 of 2 review helpful Quite generic information By Bartolomucci Fabrizio Perhaps just because there is little to do and

things change quite frequently and abruptly I bought the book as I was not able to connect my AppleTV to the mac and I got useful hints to solve the issue Anyway a visit to a Mac store has been so far the quicker solution So my suggestion is to buy this book only if you have no nearby Mac Store and you Share printers play games online and see how to find a strong signal Here s an AirPort that won t make you wait This cool technology makes wireless networking a snap and with this book even an adult can do it You ll see how to set up your network with Mac OS r X add home entertainment toys take it on the road and even sorry keep in touch with the office from almost anywhere Discover how to Add AirPort to any OS X Mac From the Back Cover Share printers play games online and see how to find a strong signal Here s an AirPort that won t make you wait This cool technology makes wireless networking a snap and with this book even an adult can do it You ll see how to set up
