Hunt Linux Library):

10 of 11 review helpful Finally a book on Linux and BIND worth buying By GoXplore Okay rarely do I rave about computer books especially books on such dry topics as running a DNS server I m just one of those book buyers who tries to do a little pre purchase research and who expects those books that I do purchase to at least meet their billing But this book far surpassed what I expected from it Craig Hun The Craig Hunt Linux Library provides the advanced

information that Linux professionals and systems administrators need to keep their Linux servers up and running at maximum efficiency Developed by noted Linux and TCP IP guru Craig Hunt and written by acknowledged Linux experts these books dig deeper into each of the eight key Linux topics Samba Apache DHCP NFS and Automounter Sendmail DNS security and system administration than any other book on the market T com Linux which is well suited to fire and forget applications that require high reliability can make an excellent foundation on which to build a Domain Name System DNS server Linux DNS Server Administration shows how to do that treating Linux
