By Byeong Gi Lee, Byoung-Hoon Kim : Scrambling Techniques for CDMA Communications (The Springer International Series in Engineering and Computer Science) scrambling techniques for cdma communications the springer international series in engineering and series in engineering and computer science scrambling techniques for cdma communications the springer international series in engineering and computer science byeong gi Scrambling Techniques for CDMA Communications (The Springer International Series in Engineering and Computer Science):

This invaluable text addresses spreading scrambling and synchronization techniques for use in inter cell synchronous and asynchronous CDMA systems including the IMT 2000 It provides fundamental background material and introduces novel acquisition techniques that enable rapid and robust acquisition of inter cell synchronous and asynchronous IMT 2000 CDMA systems
