reconfigurable components for application specific processor kluwer international series in engineering and computer science springer international application specific processors is written for use by the kluwer international series in engineering and computer science springer verlag us 1997 Application Specific Processors (The Springer International Series in Engineering and Computer Science):

Application Specific Processors is written for use by engineers who are developing specialized systems application specific systems Traditionally most high performance signal processors have been realized with application specific processors The explanation is that application specific processors can be tailored to exactly match the usually very demanding application requirements The result is that no processing power is wasted for unnecessary ca From the Back Cover Application Specific Processors consists of eight chapters which provide a mixture of techniques and examples that relate to application specific processing The inclusion of techniques is expected to suggest additional research and to assist
