8 of 8 review helpful Excellent book but index is close to useless By B R Snyder I m a relatively tech y person trying to get a handle on cloud computing I have found this book very easy to read clearly organized and very practical My

main gripe with it is the index I rely heavily on a book s index both to find something I read before and to get an overview of the various topics a book covers The index for this bo Updated and Expanded in 2013 About the Author John Rhoton is a strategy consultant who advises global enterprise customers on emerging technologies with a current focus on public private and hybrid cloud computing He speaks regularly on technology and strategy and is the author of five bo
