By Ganesh Chandra Deka : Handbook of Research on Securing Cloud-Based Databases with Biometric Applications handbook of research on securing cloud based databases with biometric applications 9781466665590 security and forensic isandt books selection from handbook of research on securing cloud based cloud based databases with biometric applications explores cloud database security Handbook of Research on Securing Cloud-Based Databases with Biometric Applications:

Cloud technologies have revolutionized the way we store information and perform various computing tasks. With the rise of this new technology, the ability to secure information stored on the cloud becomes a concern. The Handbook of Research on Securing Cloud Based Databases with Biometric Applications explores the latest innovations in promoting cloud security through human authentication techniques. Exploring methods of access by identification includes: About the Author Ganesh Chandra Deka is working as Assistant Director of Training in DGE T MoLE since 2006 UPSC direct recruitment. He has done B Tech Computer Engineering from North eastern Hill University Shillong India. His previous assignments:
