for Telecommunications, Networking, the Internet and Information Technology (18th Edition):

49 of 51 review helpful Needs to be on the desk of every Telecom professional By Todd Wylie Learning telecommunications is difficult when you realize that this industry thrives on producing thousands of worthless acronyms When I started out in this field it felt like I was learning a foreign language and I was This book will prove invaluable to as you as you work your way through a hoarde of acronyms that most people Communications traffic worldwide is growing rapidly wired and wireless Data and voice traffic on the Internet is doubling every 100 days There will be one billion people on line by 2005 The demand is coming from everywhere ecommerce video employee collaboration etc Even after the huge growth in Internet usage in the last few years more people are actually talking on cell phone networks than are surfing the Internet The nature of ubiquitous communications h Exhaustive and surprisingly down to earth From the Publisher 20th Edition About the Author Harry Newton has 31 years studying writing lecturing and investing in telecommunications
