**By Vivek Alwayn : Optical Network Design and Implementation** a comprehensive guide to understanding and configuring multiservice dwdm sonet and sdh architectures optical network design and implementation provides in depth providing a complete reference of technology solutions for next generation optical networks this book explains the technology differences between various Optical Network Design and Implementation:

1 of 1 review helpful Very informative treatment of SONET SDH and MSPPs By R Miller I work for a switch fabric semiconductor company I wanted to gain a better understanding of the types of systems that our components would be used in specifically relating to IP over SONET traffic MSPPs and ring protection mechanisms This book fit the bill quite nicely It covers the basics of fiber optic technology including DWDM The A comprehensive guide to

understanding and configuring multiservice DWDM SONET and SDH architectures Optical Network Design and Implementation provides in depth coverage of the following DS1 DS3 E1 E3 over SONET SDH IEEE 802.17 Resilient Packet Ring RPR Fast Gigabit Ethernet over SONET SDH VRF virtual private networks Double tagged 802.1Q VPNs SAN transport FICON and Fibre Channel over SONET SDH From the Back Cover A comprehensive guide to understanding and configuring multiservice DWDM SONET and SDH architectures Optical Network Design and Implementation provides in depth coverage of the following
