13 of 14 review helpful Most helpful book I ve purchased for Cisco By Cory Extremely helpful for myself and others in class just starting off in Cisco If its only a recommended book for your Cisco class ignore the need to save money and pick this up Only gripe is that it baby steps you in the beginning of every chapter Then again we all have those days where we completely draw blanks 2 of 2 rev Here are all the CCNA level Routing and Switching commands you need in one condensed portable resource CCNA Routing and Switching Portable Command Guide is filled with valuable easy to access information ndash and it rsquo s portable enough to use whether you rsquo re in the server room or the equipment closet The guide summarizes all CCNA certification level Cisco IOS Software About the Author Scott Empson is the chair of the Bachelor of Applied Information Systems Technology degree program at the Northern Alberta Institute of Technology in Edmonton Alberta
