From Springer : Cloud Computing for Logistics (Lecture Notes in Logistics) michael ten hompel jakob rehof oliver wolf eds cloud computing for logistics springer international publishing 2015 cloud computing for logistics lecture notes in logistics michael ten hompel jakob rehof oliver wolf on amazon free shipping on qualifying offers this Cloud Computing for Logistics (Lecture Notes in Logistics):

This edited monograph brings together research papers covering the state of the art in cloud computing for logistics. The book includes general business object models for intralogistics as well as user friendly methods for logistics business process design. It also presents a general template for logistics applications from the cloud. The target audience primarily comprises researchers and experts in the field but the book will also be beneficial for graduate student. From the Back Cover This edited monograph brings together research papers covering the state of the art in cloud computing for logistics. The book includes general business object models for intralogistics as well as user friendly methods for logistics business.
