

# Studying Social Networks: A Guide to Empirical Research

*By Marina Hennig, Ulrik Brandes, Jürgen Pfeffer, Ines Mergel*

| #2063648 in Books | 2013-02-15 | Original language: English | PDF # 1 | 8.38 x .80 x 5.50l, .65 | File type: PDF | 220 pages | File size: 21.Mb

**By Marina Hennig, Ulrik Brandes, Jürgen Pfeffer, Ines Mergel : Studying Social Networks: A Guide to Empirical Research** studying social networks provides a concise comprehensive introduction to the process of empirical network research students and practitioners new to social download and read studying social networks a guide to empirical research studying social networks a guide to empirical research studying social networks a guide to Studying Social Networks: A Guide to Empirical Research:

Studying Social Networks provides a concise comprehensive introduction to the process of empirical network research. Students and practitioners new to social research will find easily understandable learning goals, numerous examples, and helpful exercises all in one compact volume. The authors have integrated different disciplinary perspectives while stressing the importance of substance-specific orientation while studying networks. Scholars will find it from the back cover. It looks to be the best book of its kind. Studying Social Networks is concise and conceptually clear. Ron Breiger. About the Author: Marina Hennig is professor of social network research.

### **studying social networks a guide to empirical research**

marina hennig is professor of social network research and sociology of the family at johannes gutenbergs universität mainz. ulrik brandes is professor of algorithmics. **audiobook** studying social networks a guide to empirical research. marina hennig, ulrik brandes, jrgen pfeffer, ines mergel. on amazon. free shipping on qualifying. **review** buy studying social networks a guide to empirical research by marina hennig, ulrik brandes, jrgen pfeffer, ines mergel. isbn 9783593397634. from studying social networks provides a concise comprehensive introduction to the process of empirical network research. students and practitioners new to social
