By Emmanuel Udoh : Adoption of Grid and Cloud Computing Technology: A Technology Acceptance Model
on apr 30 2015 jscdss jscdss published cloud computing adoption behaviour an application of the technology acceptance model cloud computing using the technology acceptance was based on the technology acceptance model users acceptance of personal cloud computing 7 Adoption of Grid and Cloud Computing Technology: A Technology

Acceptance Model:

Advances in grid technology in the past two decades have enabled some organizations to harness enormous computational power on demand. However, the prediction of widespread adoption of the grid technology has not materialized, while increasingly the cloud technology is becoming popular. In this book, the technology acceptance models were successfully tested and used to understand the factors that affect the acceptance or rejection of innovative grids and clouds. Using the About the Author Emmanuel Udoh is a professor of computer science at the Indiana Institute of Technology USA. He received his PHD degree in Information Technology with MBA background from Capella University USA. Moreover, he is also a PHD holder in Geo science.
