From River Publishers : Dynamic Resource Allocation in Embedded, High-Performance and Cloud Computing (River Publishers Series in Information Science and Technology) river publishers series in information science and dynamic resource allocation in embedded high performance and cloud computing covers dynamic resource allocation in embedded high performance and cloud computing river publishers series in information science and technology leandro soares Dynamic Resource Allocation in Embedded, High-Performance and Cloud Computing (River Publishers Series in Information Science and Technology):

The availability of many core computing platforms enables a wide variety of technical solutions for systems across the embedded high performance and cloud computing domains However large scale many core systems are notoriously hard to optimize Choices regarding resource allocation alone can account for wide variability in timeliness and energy dissipation up to several orders of magnitude Dynamic Resource Allocation in Embedded High Performance and About the Author Leandro Soares Indrusiak
