2 of 2 review helpful A well written leaning tool that needs updating By Cincinnerdi Positives It s written in an easy to read style that won t have you sleeping too quickly It s got summary Exam watch blocks every few pages to summarize what you should know It s got videos on a CD I know don t roll your eyes yet that are actually helpful

Most videos that come with computer training books that I ve seen are a jok The Most Complete CCNA Software Exam Preparation Package Available This study guide provides 100 complete coverage of all objectives for the newly revised CCNA exam and also covers exam objectives for the INTRO and ICND exams The book includes an interactive CD containing powerful network simulation tools and exam preparation software powered by Boson Software The CD contains more than 20 Labs from the book and features hundreds of commands more than Four Hundred p From the Back Cover Get the book that shows you not only what but how to study 100 complete coverage of all official objectives for exam 640 801 Exam Readiness checklist at the front and back of the book for all three
